Subj. Line: Kick Hypertension Out on Its A\*\* Today With THIS Proven Nutrient

### **Hypertension Isn't Just Life-Threatening. It's Frustration You Don't Deserve!**

#### **Toss Hypertension Out on Its A\*\* Today and Live Your Life Again in Freedom!**

Dear [Prospect First Name],

Does high blood pressure piss you off as much as it pisses most people off?

What I mean is, high blood pressure is more than a dangerous health condition that can (and does) cause stroke and heart failure.

And it's more than the leading cause of death and disability in America.

High blood pressure is also a feeling. Specifically, the feeling of an uninvited guest who drains your energy, limits your life and hangs around your neck like a boat anchor.

In other words, if high blood pressure was a person, you likely have days when you understandably want to tell high blood pressure, "Get the hell out, you parasite!"

When it doesn't, many people turn to Big Pharma blood-pressure drugs to try to get rid of hypertension. But that's the irony of those drugs.

Whether brand name or generic, blood-pressure drugs come with their own uninvited problems, like diarrhea, vomiting, skin rash, erectile problems and running to the bathroom all day like a chipmunk drinking a Big Gulp.

Said another way, the side effects are the same as hiring a bodyguard who spends his time hammering on *you*, and here's the kicker. For all that suffering and cost, evidence shows that blood-pressure drugs DO NOT always work.

They just double up on the uninvited guests.

They double up the frustration, and that boat anchor around your neck gets bigger.

That's not freedom.

That's not even healthy.

That's the same as living in a dysfunctional relationship where you alone have to pay for everything while uninvited guests suck you dry like giant leeches.

No one should have to live like that.

And you don't have to.

You can get rid of them all today.

You can toss hypertension out on its butt without the risk of harm caused by prescription drugs.

Best of all, you can do it naturally.

To get your life and freedom back today...
